KPI-1 ICT Systems without ATO Report

Snapshot Date: 2026-04-23

Indicator: KPI-1 - ICT Systems have an active ATO

ATO findings summary

ICT systems in scope: 60

ATO provided: 60 (100%)

ATO missing: 0 (0%)

ATO missing includes blank or whitespace-only ATO numbers.

Description

Share of in-scope ICT systems with an ATO number provided. A missing or blank ATO number is non-compliant. Systems are selected directly, or through infrastructure belonging to the selected managed networks; each system is counted once.

Success Measure: Target = 100% of ICT systems with active ATO.

Filter Scope

Network=All | ICT System=All | Criticality=All | Security Domain=All | Environment=All | Asset Type=All | Severity=All | Mission Capability=All | Business Service=All

Observed Non-compliant Condition

KPI-1 is currently within target in this filter scope with no detected non-compliant condition.

Remediation Actions

- Validate ATO currency for non-compliant ICT systems and initiate renewal workflows.
- Escalate expired or missing ATO records to ICT governance authority.
