MEASURES VIEW

KPI and SPI Measures

Performance and compliance measures for Defence Cyber Terrain posture. Snapshot date 2026-02-25. All charts and scores are recalculated from the active filter scope.

KPI AND SPI PERFORMANCE MATRIX

Scores are computed on currently filtered scope.

Managed Network: All | ICT System: All | Environment: All | Asset Type: All | Mission Capability: All | Business Service: All

KEY PERFORMANCE INDICATORS (KPI)

KPI	DESCRIPTION	SUCCESS MEASURE	SCORE	TASKING REPORT
KPI-1 Overall SPI Compliance	Share of compliant checks across all applicable SPI evaluations in current filter scope.	Target >= 95% compliant checks.	67% (1353/2020)	Generate PDF
KPI-2 Non-compliant Check Burden	Count of failing SPI checks that need remediation.	Target = 0 non-compliant checks.	576	Generate PDF
KPI-3 Data Quality Completeness	Count of SPI checks with missing/insufficient evidence (Unknown status).	Target = 0 unknown checks.	91	Generate PDF
KPI-4 High Risk Rule Triggers	Findings matching SPI 4/5/6 high-risk combinations in production context.	Target = 0 high-risk triggers.	58	Generate PDF
KPI-5 Critical Exposure in Production	Production assets with critical-vulnerability exposure requiring urgent treatment.	Target = 0 critical exposure findings.	40	Generate PDF

KPI	DESCRIPTION	SUCCESS MEASURE	SCORE	TASKING REPORT
KPI-6 Immediate Action Backlog	Priority 1-2 findings requiring immediate command action.	Target = 0 immediate action items.	158	Generate PDF

SECURITY POSTURE INDICATORS (SPI)

SPI	DESCRIPTION	SUCCESS MEASURE	SCORE (%)	COMPLIANT	NON-COMPLIANT
SPI 1	Operating systems must not be out of vendor support.	100% of applicable servers/workstations run vendor-supported OS versions.	57.8%	199	121
SPI 2	Operating systems must be N-2 or better.	100% of applicable servers/workstations are N-2 or better.	57.8%	199	121
SPI 3	Servers must not have Critical vulnerabilities.	0 servers with critical vulnerabilities.	54.1%	79	67
SPI 4	High Risk: Production servers must not have Critical vulns with out-of-support OS.	0 production servers with critical vulnerabilities on unsupported OS.	84.9%	124	19
SPI 5	High Risk: Production servers must not have Critical vulns with out-of-support installed software.	0 production servers with critical vulnerabilities plus unsupported installed software.	83.6%	122	24

SPI	DESCRIPTION	SUCCESS MEASURE	SCORE (%)	COMPLIANT	NON-COMPLIANT
SPI 6	High Risk: Production-supporting workstations must not have Critical vulns with out-of-support installed software.	0 production-supporting workstations with critical vulnerabilities plus unsupported installed software.	92.4%	183	15
SPI 7	Network devices must not have Critical vulnerabilities.	0 network devices with critical vulnerabilities.	62.5%	55	33
SPI 8	Network devices must not have unsupported OS/firmware.	100% of network-device OS/firmware versions are supported.	68.2%	60	24
SPI 9	Network devices must be on latest patches.	100% of network devices on latest patch level.	58%	51	30
SPI 10	No physical device should be EOL or out of warranty.	0 physical devices in EOL or out-of-warranty state.	65%	281	122

Defence Cyber Terrain - Cyber Posture Brief

Snapshot Date: 2026-02-25

Executive Summary

Overall SPI compliance is 67% with 576 non-compliant checks. High-risk conditions remain concentrated in production-linked server and workstation assets, where critical vulnerabilities intersect with unsupported operating environments and software components.

Immediate response should focus on the highest-ranked findings and production critical exposures. Medium-horizon remediation planning should target N-2 uplift, network patch lag, and lifecycle renewal (EOL/out-of-warranty) to reduce sustained mission/service risk across managed networks.

Top 10 Risks

- [P1] SPI 5 (High Risk) - srv-0008 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 5 (High Risk) - srv-0011 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 5 (High Risk) - srv-0013 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 4 (High Risk) - srv-0016 - High Risk: Production servers must not have Critical vulns with out-of-support OS.
- [P1] SPI 5 (High Risk) - srv-0016 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 4 (High Risk) - srv-0026 - High Risk: Production servers must not have Critical vulns with out-of-support OS.
- [P1] SPI 5 (High Risk) - srv-0034 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 4 (High Risk) - srv-0038 - High Risk: Production servers must not have Critical vulns with out-of-support OS.
- [P1] SPI 5 (High Risk) - srv-0038 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.
- [P1] SPI 5 (High Risk) - srv-0041 - High Risk: Production servers must not have Critical vulns with out-of-support installed software.

Posture by Managed Network

Network	Classification	Assets	Posture
Aegis Mesh North	Protected	98	Non-compliant
Sentinel Core East	Restricted	90	Non-compliant
Rampart Domain South	Protected	71	Non-compliant

Network	Classification	Assets	Posture
Vanguard Grid West	Protected	86	Non-compliant
Citadel Fusion Central	Restricted	87	Non-compliant

Posture by ICT System

System	Mission Context	Service Context	Overall	Production
Falcon Ops Hub	Air Tasking Management (Low), Logistics Sustainment (High)	Geo Intelligence Service (Medium), Mission Planning Platform (Low), Vulnerability Management Service (Medium)	Non-compliant	Non-compliant
Trident Link	Joint Fires Coordination (High), Maritime Domain Awareness (Low)	Vulnerability Management Service (Medium)	Non-compliant	Non-compliant
Cerberus Control	Battlefield Telemetry Fusion (High), Maritime Domain Awareness (Medium), Logistics Sustainment (Low)	Endpoint Protection Console (Low), Command Portal (Medium), Secure Email Gateway (Medium)	Non-compliant	Non-compliant
Iron Lens	Logistics Sustainment (High), Battlefield Telemetry Fusion (Medium)	Endpoint Protection Console (Medium)	Non-compliant	Non-compliant
Vector Guard	ISR Data Exploitation (High), Air Tasking Management (Medium)	Command Portal (Low)	Non-compliant	Non-compliant
Hydra Exchange	Joint Fires Coordination (Low), Air Tasking Management (High)	Mission Planning Platform (High), Vulnerability Management Service (Low), Operational Ticketing (Low)	Non-compliant	Non-compliant
Atlas Dispatch	Secure Coalition Messaging (High), ISR Data Exploitation (High), Strategic Comms Resilience (Medium)	Endpoint Protection Console (High)	Non-compliant	Non-compliant
Nexus Shield	Logistics Sustainment (Low), Strategic Comms Resilience (Medium)	Vulnerability Management Service (Medium), Geo Intelligence Service (Low), Command Portal (High)	Non-compliant	Non-compliant
Pioneer Relay	Secure Coalition Messaging (Low)	Endpoint Protection Console (Medium)	Non-compliant	Non-compliant
Argus Matrix	ISR Data Exploitation (Medium), Battlefield Telemetry Fusion (Low), Joint Fires Coordination (Medium)	Mission Planning Platform (Medium), Vulnerability Management Service (High)	Non-compliant	Non-compliant
Echo Bastion	ISR Data Exploitation (Low), Logistics Sustainment (Medium), Air Tasking Management (High)	Vulnerability Management Service (Low)	Non-compliant	Non-compliant
Tempest Planner	Logistics Sustainment (Medium), Secure Coalition Messaging (Medium), Strategic Comms Resilience (Low)	Data Lake Service (High)	Non-compliant	Non-compliant

Mission Capability Cyber Posture Narrative

Logistics Sustainment (Criticality: High) posture is **Elevated**. In current scope this capability is linked to 6 ICT system(s), with 236 non-compliant findings and 37 unknown/data-gap findings across 125 impacted asset(s). High-priority backlog count is 66, including 30 High Risk trigger(s), 19 Critical Exposure item(s), and 145 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

ISR Data Exploitation (Criticality: High) posture is **Elevated**. In current scope this capability is linked to 4 ICT system(s), with 161 non-compliant findings and 27 unknown/data-gap findings across 88 impacted asset(s). High-priority backlog count is 44, including 19 High Risk trigger(s), 14 Critical Exposure item(s), and 104 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

Secure Coalition Messaging (Criticality: High) posture is **Elevated**. In current scope this capability is linked to 3 ICT system(s), with 127 non-compliant findings and 21 unknown/data-gap findings across 65 impacted asset(s). High-priority backlog count is 34, including 12 High Risk trigger(s), 9 Critical Exposure item(s), and 84 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

Battlefield Telemetry Fusion (Criticality: High) posture is **Elevated**. In current scope this capability is linked to 3 ICT system(s), with 125 non-compliant findings and 20 unknown/data-gap findings across 62 impacted asset(s). High-priority backlog count is 43, including 22 High Risk trigger(s), 13 Critical Exposure item(s), and 80 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

Joint Fires Coordination (Criticality: High) posture is **Elevated**. In current scope this capability is linked to 3 ICT system(s), with 90 non-compliant findings and 16 unknown/data-gap findings across 53 impacted asset(s). High-priority backlog count is 24, including 11 High Risk trigger(s), 8 Critical Exposure item(s), and 53 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

Strategic Comms Resilience (Criticality: Medium) posture is **Elevated**. In current scope this capability is linked to 3 ICT system(s), with 114 non-compliant findings and 24 unknown/data-gap findings across 63 impacted asset(s). High-priority backlog count is 26, including 9 High Risk trigger(s), 7 Critical Exposure item(s), and 65 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Air Tasking Management (Criticality: Low) posture is **Elevated**. In current scope this capability is linked to 4 ICT system(s), with 147 non-compliant findings and 18 unknown/data-gap findings across 82 impacted asset(s). High-priority backlog count is 40, including 18 High Risk trigger(s), 14 Critical Exposure item(s), and 95 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Maritime Domain Awareness (Criticality: Low) posture is **Elevated**. In current scope this capability is linked to 2 ICT system(s), with 66 non-compliant findings and 8 unknown/data-gap findings across 31 impacted asset(s). High-priority backlog count is 20, including 11 High Risk trigger(s), 8 Critical Exposure item(s), and 41 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Business Service Cyber Posture Narrative

Data Lake Service (Criticality: High) posture is **Elevated**. In current scope this service is linked to 1 ICT system(s), with 24 non-compliant findings and 6 unknown/data-gap findings across 14 impacted asset(s). High-priority backlog count is 8, including 3 High Risk trigger(s), 2 Critical Exposure item(s), and 16 production-specific exception(s). **HIGH IMPORTANCE: Immediate command attention required.**

Vulnerability Management Service (Criticality: Medium) posture is **Elevated**. In current scope this service is linked to 6 ICT system(s), with 218 non-compliant findings and 34 unknown/data-gap findings across 125 impacted asset(s). High-priority backlog count is 51, including 22 High Risk trigger(s), 15 Critical Exposure item(s), and 125 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Command Portal (Criticality: Medium) posture is **Elevated**. In current scope this service is linked to 3 ICT system(s), with 138 non-compliant findings and 17 unknown/data-gap findings across 67 impacted asset(s). High-priority backlog count is 39, including 19 High Risk trigger(s), 14 Critical Exposure item(s), and 78 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Geo Intelligence Service (Criticality: Medium) posture is **Elevated**. In current scope this service is linked to 2 ICT system(s), with 90 non-compliant findings and 12 unknown/data-gap findings across 48 impacted asset(s). High-priority backlog count is 19, including 9 High Risk trigger(s), 5 Critical Exposure item(s), and 48 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Secure Email Gateway (Criticality: Medium) posture is **Elevated**. In current scope this service is linked to 1 ICT system(s), with 44 non-compliant findings and 3 unknown/data-gap findings across 19 impacted asset(s). High-priority backlog count is 15, including 8 High Risk trigger(s), 6 Critical Exposure item(s), and 26 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Endpoint Protection Console (Criticality: Low) posture is **Elevated**. In current scope this service is linked to 4 ICT system(s), with 187 non-compliant findings and 28 unknown/data-gap findings across 90 impacted asset(s). High-priority backlog count is 57, including 25 High Risk trigger(s), 17 Critical Exposure item(s), and 125 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Mission Planning Platform (Criticality: Low) posture is **Elevated**. In current scope this service is linked to 3 ICT system(s), with 107 non-compliant findings and 14 unknown/data-gap findings across 61 impacted asset(s). High-priority backlog count is 29, including 14 High Risk trigger(s), 9 Critical Exposure item(s), and 64 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Operational Ticketing (Criticality: Low) posture is **Elevated**. In current scope this service is linked to 1 ICT system(s), with 27 non-compliant findings and 4 unknown/data-gap findings across 18 impacted asset(s). High-priority backlog count is 7, including 2 High Risk trigger(s), 3 Critical Exposure item(s), and 15 production-specific exception(s). **IMPORTANT: Prioritized remediation and tracking required.**

Appendix: Assumptions and Data Quality

- Local seeded JSON dataset only, no external feeds.
- Roll-up precedence: Non-compliant over Unknown over Compliant.
- Production context inferred from ICT system environment linkage.
- Unknown data counts: 91 unknown checks, 91 unknown findings.
- Active filters in this report: None
